Julio follows the talk with a special Renewal workshop, teaching groups how to use the principals of subscription and unsubscription to effect positive change in their circles.
2. Julio's **Storytelling** talk is the basis of his master class. He has developed it over ten years and continues to teach it to groups large and small, including both creatives and executives in a variety of industries and fields.
3. Julio is also available to speak about the challenges and triumphs of a career as a creative, as well as life as an out gay man for over 25 years. He is developing a one-hour talk called, "25 Lessons from 25 Years of Being Out," based on his popular Pride essay.
